

I am a loyal listener of the K-LOVE radio station in the Oklahoma City area. I love the encouraging music and uplifting verses and cutting edge news I receive daily. If my friends and family were no longer able to listen to K-LOVE it could mean that we would no longer get information about this communities local Christian events. why would anyone want to miss an opportunity to improve their life in a postive way? This is a "safe" radio station---meaning I never have to worry what my children might hear over the air waves, unlike so many other questionable material shared with the public. Please don't take away my K-LOVE!!!!
